# Instructions for Completing Physician's Report Form MD

## A physician would complete this report for:

- 1. New injuries The physician or worker believes the injury is work-related.
- 2. Recurrences The injury may be a recurrence of a previous work-related injury.
- 3. Progress reporting When there is a significant change in the worker's: (1) condition; (2) treatment; or (3) return-to-work status.

# On the day of the visit:

Provide the employer's copy of the form MD to the injured worker, who will then give it to the employer. Only sections outlined in red are visible on the employer's copy.

### Complete and legible reporting:

- Reporting fees will not be paid for incomplete or illegible reports.
- Please do not use a stamp for any information including physician's name, contact information or billing number. Stamps are not permitted as this is a triplicate form. Information provided by stamp will not be visible on the worker and employer copies of the form. Forms using stamps will be considered illegible.

#### Section B - Specific Information for Parts of Body Injured:

- It is not necessary to provide the *Mechanism of Injury* information on reports subsequent to the initial report unless there is a change in the information provided or additional information is available.
- Coding is used in this section as outlined on the reverse of this sheet. Only one code box should be used for each code entered, regardless if the code has one or two digits (see example below).
- First, enter codes for *Part(s)* of *Body* and whether the injury pertains to the Left, Right or Center of the specified body part(s), if applicable. If the code for the *Part of Body* is not on the code sheet, enter the code for *Other* and identify the specific body part in the space below the code.
- For each *Part of Body*, enter coding, as applicable, for Subjective Reports, Objective Findings, Diagnoses, Treatments, Investigations\*, and Assistive Devices\*. When outlining the *Examination* and *Treatment Plan*, including all applicable codes is important.
- If the Subjective Report, Objective Finding, Diagnosis, Treatment, Investigation and/or Assistive Device is not included on the code sheet, enter the code for *Other*. When using *Other* codes, also enter the *Other* code number and provide details for that code in the Additional Comments box (box 8).
- The *Update Status* boxes are used when completing progress reports. They are intended to provide updates on Subjective Reports and Objective Findings from the previous visit. The *Update Status* is not required for initial reports of injury.

\*Note: The Investigations category is only intended for referrals being made at the time of this visit. Recommendations for assistive devices may also require completion of a Health Care Devices and Supplies Prescription form.

		Section B Example	
SEC	TION B - SPECIFIC	INFORMATION FOR PARTS OF BODY INJURED	
6	Mechanism of injury	/ / incident:	
	Same as previou	sky renorted on the initial renort	

6 Mechanism of inj	6 Mechanism of injury / incident:																		
Same as previo	iously reporte	d on	the i	initia	al rep	ort.													
7 Use codes from code sheet use more than one code where necessary Examination Treatment plan										an	Did this injury aggravate a

8 Additional Comme	ents - or - If you	use a	any of	the "c	other" o	codes	abov	e (ex	cept F	art o	f Body	y), indi	cate the	code i	# and prov	/ide c	details.	If yes to either of the above please specify in Box 8.	
92 - negative Decreased RC	obowstring to OM - F.F. 40	est , Ext	:. 10 <sup>0</sup>	°(L)+	RR	otat	ion (	N C	+ <i>R</i>	Fle	xion	<b>W</b>							

### Points to note:

- The second *Part of Body* in this example was not included on the code sheet. Therefore, code *90* is entered for *Other* and *Nose* is written in the text box immediately below the *Part of Body* code.
- Under Objective Findings for the first Part of Body, code 10 is used for decreased range of motion. The details related to
  the decreased ROM are documented in the Additional Comments box.
- Also under Objective Findings for the first *Part of Body*, code 92 is entered for *Other* and 92 *negative bowstring test* is written in the Additional Comments box to specify the details of the *Other* code.
- No Update Status is provided for the negative bowstring test as this finding had not been previously reported.

# Section C Specific Information for All Diagnoses (pertaining to Section B):

 Subsection 12 only applies to medications prescribed for the work injury and not medications related to non-work related injuries or illnesses.

# **Supporting Information**

Employers and workers are obligated under the Workplace Health, Safety and Compensation Act, 2022 to co-operate in the worker's early and safe return to suitable and available employment with the injury employer. This may involve modified work, ease back to regular work, transfer to an alternate job, or trial work to assess the worker's capability.

The worker is responsible for providing the employer's copy of the form MD, physician's report, to the employer by the next working day following the physician's visit. If a worker cannot provide the form in person he/she must contact the employer and provide the information by telephone. e-mail or fax.

#### Worker co-operation:

- (i) contact the injury employer as soon as possible after the injury occurs and maintain effective communication throughout the period of recovery or impairment;
- (ii) assist the employer, as may be required or requested, to identify suitable and available employment;
- (iii) accept suitable employment when identified; and
- give WorkplaceNL any information requested concerning the return-to-work plan, including information about any disputes or disagreements which arise during the early and safe return-to-work process.

#### **Employer co-operation:**

- (i) contact the worker as soon as possible after the injury occurs and maintain effective communication throughout the period of the worker's recovery or impairment;
- (ii) provide suitable and available employment. The employer is responsible to pay the worker's salary earned during the early and safe return-to-work plan. WorkplaceNL will pay the differential, if any, between the salary earned during the early and safe return-to-work plan and 85% of the worker's net pre-injury earnings subject to the maximum compensable ceiling; and
- (iii) give WorkplaceNL any information requested concerning the worker's return to work, including information about any disputes or disagreements which arise during the early and safe return-to-work process.
