# 2023 Table of Rates

## 2023 Industry Assessment Rates

The rates provided in this booklet are the 2023 industry assessment rates per \$100 of assessable payroll, except for logging, volunteer firefighters, ambulance operators and fish purchasing. The unit of assessment for these industries is provided in this booklet. The minimum assessment for any employer during the calendar year 2023 is \$50.

In determining the amount of assessable payroll for the year 2023, the earnings of each worker (for the whole or any part of the calendar year) are to be included up to a maximum of \$72,870 per person.

Once registered, all employers are classified on the basis of industry for insurance purposes. The industry group collectively pays the cost of all injuries that arise within the industry group. Industry groups must be sufficiently large to provide for an adequate spread of risk and some stability in the assessment rate.

For assessment purposes, employers are classified by the industry or industries in which they are operating represented by NIC codes (Newfoundland Industrial Classification codes). This classification encompasses all work incidental to the production of goods and services provided. Incidental is where an operation, regardless of whether separated by location or payroll, exists to service the primary industry of the firm. Separate NIC codes are not permitted if the operation or activity is a supportive, inescapable or an ancillary part of the firm's main industry. For example, a manufacturing company which has an advertising division to sell its products is not assigned a separate advertising classification because the advertising is considered an inescapable part of the firm's manufacturing operation.

### Newfoundland Industrial Classification

**Why do I pay the same rate for my office workers and my shop workers?** Classifications are based on the complete industry rather than on occupations within that industry for a number of reasons:

**Simplicity:** Attempting to classify employees individually would mean vastly more complicated guidelines, reporting and auditing procedures since many occupations are difficult to categorize and many employees perform two or more functions within the same business. The result would be much higher administration costs which would be passed on to the employer.

**The number of classifications and rates:** Occupational rating would require far more classifications and assessment rates than there are in the current system. Each classification would include fewer employees and a less stable revenue base. This would result in widely fluctuating assessment rates. Classification by occupation would not change the cost of claims. The total cost within any particular industry would not change if the assessments for some occupations were reduced but the rates for other occupations within the industry would have to vastly increase.

# Industrial classification changes

Employers are responsible for notifying WorkplaceNL of any changes in their business activities for classification review purposes. Annually, WorkplaceNL provides notification to employers of their NIC code and assessment rate for the following year. The Annual Employer Statement package is also sent requesting employers to indicate any changes in their business description. Policy ES-03, Classification of Employer's Operations contains additional information concerning the classification process.

If employers need to advise WorkplaceNL of a change in their operations or feel they have been incorrectly classified, contact the Financial Analyst – Classifications & Base Rates at 709.778.1189, toll-free 1.800.563.9000 or provide a detailed description of the business activities and services by fax 709.778.1110 or mail:

## Be ready for PRIME

Under the PRIME program, the assessment rate announced in this booklet represents only one portion of your 2023 assessment. When your annual employer statements are processed in 2023, your 2022 assessment may be adjusted in the form of a practice refund and an experience refund or charge.

## To ensure you receive your refund(s), remember these tips to pass PRIME and minimize your assessments:

- ✓ Prevent injuries before they happen.
- ✓ Meet your PRIME practice requirements.
- ✓ Answer ALL applicable questions in the PRIME refund section of your Annual Employer Statements.
- ✓ Construction industry employers must obtain and maintain COR™ certification through the Newfoundland and Labrador Construction Safety Association.
- ✓ Submit your Annual Employer Statements and/or Quarterly Production Statements on time.
- ✓ Submit your Occupational Health and Safety Committee minutes on time, if applicable.
- ✓ Participate in early and safe return-to-work (ESRTW) programs to help your workers come back.
- ✓ Monitor claim costs using monthly PRIME Status Reports. If your company is not currently receiving your monthly PRIME Status Report, contact WorkplaceNL to get set up.
- ✓ Ensure your payroll estimate is accurate. Inform WorkplaceNL of any changes in your operation throughout the year so your estimated experience results are realistic.

For more information about the PRIME Program call 709.778.1552 or consult our website at [workplacenl.ca](http://workplacenl.ca).

The information contained in this introduction is for reference only. The **Workplace Health, Safety and Compensation Act**, along with its Regulations and policies, constitute the official reference documents.

# Construction Industry Levy

The Newfoundland and Labrador Construction Safety Association (NLCSA) in partnership with WorkplaceNL, implements a levy of \$0.10 per \$100 of assessable payroll on firms operating in the NIC codes associated with the construction industry. The levy provides funding for the NLCSA to work with industry to provide a positive safety culture.
