

2026-03-P Actuarial Services**To All Applicants:****General:**

- This addendum shall be read in conjunction with the original RFP documents.
- Where inconsistent with the above, this addendum shall govern.
- No consideration shall be allowed for increases (extras) to the RFP Price, or otherwise to modify the RFP Submission, due to any failure of the Applicants being familiar with this addendum.
- The Applicant should insert in the Submission the numbers of addenda received by them during the RFP period. This addendum forms an integral part of the RFP Submissions and is included therein.
- It is the Applicant's responsibility to ensure all addenda have been received by the Applicant prior to RFP closing.

Scope of this Addendum:**Please note answers/clarification to Questions from prospective Applicants:**

1. With respect to Schedule "X" – Protocols for Security of WorkplaceNL Information, the RFP states that "Contractors are not permitted to store Confidential Information in cloud services." Given that many enterprise-grade security frameworks rely on the use of highly secure, Canadian-hosted or globally compliant cloud environments (including encryption at rest/in transit, access controls, audit logging, and data residency controls), we would appreciate clarification on the following:
 - Would WorkplaceNL consider alternative approaches where Confidential Information is stored within secure, enterprise cloud environments that meet or exceed industry best practices for security and privacy (e.g., SOC 2, ISO 27001, Canadian data residency, encryption, and strict access controls)?

Response: Yes, WorkplaceNL will consider alternative approaches. Please submit details of proposed alternative approaches as a part of your response to this RFP.

The Closing Date of this RFP has been extended to Friday, July 10 at 2:00pm NL Time.
